

THE CREATOR NETWORK · PLATFORM SETUP GUIDE

Five platforms. Each with one job.

Whop, Ziion, TikTok Shop, the website and ManyChat. What each one does for you, how to set it up, and how the money moves through it. About forty minutes end to end.

THE MAP

One sale, one system

PLATFORM	ITS ONE JOB	COST TO YOU
Whop	Education, The Vault, the leaderboard, the challenge, Help	Free
Ziion	Community, events, and the Thursday call	Free
TikTok Shop	In-app sales. The purchase closes inside the scroll	Free
The website	Your code and link. The customer and the subscription live here	Free
ManyChat	Turns comments into DMs carrying your link	Free to start

Join both Whop and Ziion. They do different jobs, so nobody has to choose.

A sale is recorded in exactly one place. A TikTok Shop order pays through TikTok. A website order pays through us. They never double count and they never cross over.

PLATFORM 01

Whop · the school and the scoreboard

The Supermind Creator Network lives at whop.com/supermind. Joining is free.

1. Go to whop.com/supermind and choose **Join**. Membership is free and no card is requested.
2. A welcome message arrives in a private thread. It points you to three things, in order.
3. Open **Start Here**: eight modules, two short lessons each.
4. Open **The Vault** for logos, product photography, b-roll and captions.
5. Post your first question, if you have one, in **Help**.

TAB	WHAT IT IS FOR
Start Here	The eight-module course
The Vault	Every asset, pre-approved for you
Announcements	Dates, drops and decisions from the team
Help	The official support channel. Ask here first
Wins	First sales, screenshots, milestones
Introductions	Say hello

TAB	WHAT IT IS FOR
The Network	Open conversation
Ziion	The link to the community

Three folders in The Vault are marked **Creator**, **Partner** and **Flagship**. You can see them from day one. Each one opens automatically when you reach that tier.

PLATFORM 02

Ziion · the community

ziion.io is where the Supermind community gathers: events, hikes, resources, and the Thursday Affiliate Connect call.

1. Go to **ziion.io** and create your free account today.
2. The **Supermind** space opens shortly. We will post the link in Whop Announcements and email it to you.
3. When it opens, join the space and turn on event notifications so the Thursday call reaches you.

Reciprocity is built in. When you host something of your own, whether a run club, a workshop or a panel, post it in Ziion and we promote it to the network. We fill your rooms as well as asking you to fill ours.

PLATFORM 03

TikTok Shop · sales inside the scroll

On TikTok Shop the customer never leaves the app. You tag the product in your video, they buy in two taps, and TikTok pays you directly. The Supermind brand account is **@supermindlab**.

ELIGIBILITY, PER TIKTOK'S CURRENT US RULES

REQUIREMENT	DETAIL
Age	18 or older
Location	Based in the United States
Identity	Pass TikTok's identity verification
Followers	1,000 or more
Account	In good standing with TikTok's community guidelines

Accounts under 5,000 followers start in TikTok's **30-day Creator Pilot**, which limits shoppable posting until you graduate. Menu names vary by app version and TikTok changes these rules; TikTok's own app is always the final

word.

SETTING IT UP

1. Open your profile, then **TikTok Studio → Monetization → TikTok Shop for Creator → Join now**.
2. Complete identity verification, accept the terms, and add your payout and tax details when prompted.
3. Open the **product marketplace** and search **Supermind**.
4. **Add to showcase** the products you want to promote.
5. When you post, **tag the product** in the video. An untagged video cannot attribute the sale to you.
6. **Pin** the product link on your best-performing video.

HOW THE MONEY WORKS

TikTok sets the payment schedule and pays you inside TikTok. Your Supermind TikTok rate follows the tier ladder: 15% as a Member, 20% as a Creator, 25% as a Partner, and up to 30% for Flagship during campaign windows. TikTok sales count toward your tier.

What sells on TikTok: coffee, chocolate and the Performance blend. Promote gummies through Instagram, email and your website link, since TikTok does not allow that category.

PLATFORM 04

The website · your code and your link

asupermind.com is where the customer relationship lives: email, subscription, reorders.

1. Request your code in **Start Here, Module 02**. You choose it yourself.
2. Your code gives your customer **10% off** and is permanent.
3. Your **link** tracks sales for **30 days** from the click, even when no code is typed.
4. Put the code in the last line of every caption and the link in your bio.

One discount per order. Tell your audience to use your code so the sale reaches you.

PLATFORM 05

ManyChat · comments into sales

The most common leak in affiliate marketing is somebody who loved the post, commented, and never found the link. ManyChat closes that gap.

1. Create a free account at **manychat.com** and connect your Instagram professional account.
2. Build one **comment trigger**: when somebody comments a keyword such as **CLARITY**, ManyChat replies publicly and sends a DM.
3. The DM carries one line in your voice, your code, and your link.

4. End each Reel with the instruction: *comment CLARITY and I will send you the link.*

Ask in Help for the exact trigger and DM copy the brand account uses.
