

THE CREATOR NETWORK · AFFILIATE COORDINATOR SOP — CELINA

Ten minutes a day. Eight hours a week.

The program runs on a daily rhythm, not a weekly one. Ten minutes every morning and evening keeps applications moving and nobody waiting; the Thursday call keeps affiliates connected; the blocks do the building. This is the whole job, task by task, with the templates already written.

ROLE	REPORTS TO	VERSION
AFFILIATE COORDINATOR — 8 HRS/WEEK	B. AMECHI	V4.0 · SEPTEMBER 2026

PART 01

The eight hours, allocated.

WHEN	TIME	WHAT
Daily — every weekday	10 min (5 AM · 5 PM)	The micro-check. Morning: new applications, issue codes, send welcomes. Evening: creator inbox, DMs, log the day. Nobody waits more than a few hours for a reply, and applications never pile up.
Monday	60 min	KPI sheet, scoreboard line for Amechi, payout verification, leaderboard post, monthly tier review on the first Monday
Tue or Wed	90 min	Deep-work block with Amechi — leads, campaigns, creator development, whatever is being built that week
Wednesday	90 min	Platform ops — TikTok samples and invites, Shopify approvals, content tracking
Thursday	45 min (15 prep · 30 live)	The Affiliate Connect call — 30 minutes, hosted in WHOP, recorded. Plus collecting one affiliate story for the newsletter.
Thursday	60 min	Fulfillment — boxes, collab packs, seeding, day-7 follow-ups
Friday	45 min	Weekly one-pager to Amechi by end of day
Buffer	40 min	Overflow, escalations, whatever the week actually needed
Total	8 hrs	

Anything unfinished at eight hours goes in the report under "carried over" — never silently absorbed. That log is the evidence the program has outgrown the allocation and it is how the board learns to fund more.

PART 02

The first assignment — build the funnel.

Before the daily rhythm starts, one project: **draft every email in the affiliate funnel and lay out the sequence.** This is the thing that turns 23 affiliates into 250, and until it exists the daily check has nothing to send.

#	EMAIL	TRIGGER	JOB
1	Welcome — you're in	Immediately on application	Code, link, Handbook, both community invites, the tier ladder, and one thing to do today. Warm, short, no corporate onboarding tone.
2	What a good post looks like	Day 2	Five AI reference frames matched to their lane, the collab-post ask, the tag-us ask.
3	Set up ManyChat	Day 5	The 20-minute walkthrough. The single highest-leverage technical upgrade we hand them.

4	Your first sale is the hard one	Day 10, if no sale	One format that converts, one real example, an offer to look at their page.
5	The ladder	Day 21	\$400 in 30 days moves them to 15%. Where they currently stand. What the membership card looks like.
6	First sale — congratulations	On first sale	Celebrate, screenshot request, ask permission to feature them.
7	Still here?	Day 45, no activity	Re-engagement. Low pressure, one useful thing, an easy way back in.
8	You made Creator	On hitting \$400/30 days	Rate changed today. What unlocks. Seeding offer.
9	You made Partner	On hitting \$1,000/30 days	Rate changed. Membership card in the mail. Collab-pack offer. Newsletter feature request.
10	Subscriber invitation	Campaign send to the 163	The membership-upgrade framing: you already pay for this, now it can pay you.

Draft all ten, send to Amechi for approval, then build them into the automation. Voice: the Affiliate Handbook, not a marketing email. Short paragraphs, second person, no exclamation marks.

PART 03

The daily micro-check — ten minutes.

MORNING — FIVE MINUTES

- 01 Open the application sheet.** Any new rows overnight?
- 02 For each:** sanity-check the account is real, mark status, confirm the code and link generated, confirm the welcome email fired. If automation failed, send Template 1 manually.
- 03 Flag anyone notable** — real audience, strong fit, or a name from the target list — to Amechi in one line.
- 04 Glance at TikTok Seller Center** for sample requests and account-health warnings.

EVENING — FIVE MINUTES

- 01 Clear the creator inbox.** Payment questions, code fixes, "is this sentence okay" — answer or route.
- 02 Check brand DMs and comment replies** that ManyChat did not catch.
- 03 Log the day** in the sheet: applications in, codes issued, notable posts spotted.
- 04 One-line handoff** to Amechi if anything needs him tomorrow.

WHY DAILY INSTEAD OF WEEKLY

An affiliate who applies Monday and hears nothing until Friday has already lost interest. Ten minutes a day is the difference between a funnel and a backlog — and it is only fifty minutes a week.

PART 04

The blocks.

MONDAY — 60 MIN

- 01** Update the KPI sheet: enrolled, active, revenue by platform, subscribers, sessions, boxes, posts.
- 02** Prep the scoreboard line for Amechi in the fixed format.
- 03** Verify the payout run completed; chase failures — usually a missing PayPal detail or W-9.
- 04** Post the leaderboard in WHOP. Name the top three.
- 05 First Monday only:** run the tier review. Anyone at \$400 in 30 days moves to Creator; anyone at \$1,000 moves to Partner. Send Template 8 or 9 and change the rate the same day. Order the membership card for new Partners.

WEDNESDAY PLATFORM OPS — 90 MIN

- 01 TikTok samples.** Approve real accounts with real engagement in a fitting niche; **prioritise women creators.** Log handle, date, SKU, followers. Deny bare accounts.
- 02 Sample follow-up.** Day 10 nudge to anyone who has not posted; day 16, pause future samples.
- 03 Targeted invites** — batches of 50. Amechi supplies priority names; fill the rest from marketplace search weighted toward women.
- 04 Catalog discipline.** Coffee, chocolate, creatine only. No gummies on TikTok, ever.

THURSDAY — THE AFFILIATE CONNECT CALL

30 minutes, hosted in WHOP, recorded and posted within 24 hours. Fixed running order so it never needs planning:

- 01 Wins and leaderboard (5 min)** — top three by name, any first payouts, any tier promotions.
- 02 One product story (5 min)** — so affiliates can speak accurately without being scripted.
- 03 The format of the week (10 min)** — one thing converting right now, shown with a real example.
- 04 Open floor (10 min)** — questions, page reviews, whatever they bring.

Before you close the call: ask one person for their story. Who they are, how they started, what the money does for them. That is the newsletter's Network slot and it is due weekly.

THURSDAY FULFILLMENT — 60 MIN

- 01 Gift boxes.** Pack per the SM-AFF-05 list, ship within 48 hours of pack day, log tracking. Never ship to an unconfirmed address.
- 02 Collab packs.** Confirm the event date and that the affiliate's code is live **before** the event.
- 03 Membership cards** for new Partners — mailed alone, in a rigid envelope, with a handwritten line.

05 Content tracking. Log every new affiliate video with views. Anything over 10,000 goes to Amechi the same day as a boost candidate.

06 Shopify: approve applications that came in outside the form, check codes are live, verify attribution on active affiliates.

04 Seeding. Creatine and coffee to the top 10 longest-standing subscribers, with a request for their recipes.

05 Day-7 follow-ups on everything that shipped last week.

The sheet, the report, and escalation.

TRACKING SHEET — THE TABS AND COLUMNS

- **Applications:** timestamp · name · email · handles · followers · niche · why-us · where they'll promote · address · status · code issued · welcome sent · owner · notes
- **Affiliates:** name · tier · platforms · code · joined · W-9 ✓ · source · posts this month · orders · revenue this month · lifetime · 30-day rolling total · community joined · notes
- **TikTok:** handle · invite type · rate · sample SKU and date · posted ✓ · link · views · GMV
- **Boxes & packs:** recipient · type · ship date · tracking · delivered · day-7 sent · posted ✓ · content link · spend · 60-day attributed revenue
- **Subscriber campaign:** subscriber · emailed · opened · converted · code · first sale
- **Stories:** affiliate · date collected · summary · used in which issue
- **KPI rollup:** the scoreboard, one row per week

The **30-day rolling total** column is what drives tier promotions. Set it as a formula so it maintains itself.

WEEKLY ONE-PAGER — FRIDAY, END OF DAY

- ☐ Scoreboard: this week / last week / target
- ☐ Applications in, affiliates enrolled, tier promotions
- ☐ Top 3 posts with links and views
- ☐ Samples, boxes, packs, cards shipped
- ☐ Payouts run
- ☐ The affiliate story collected this week
- ☐ Flags and carried-over tasks

ESCALATE TO AMECHI SAME-DAY

- Any gummies or CBD reference on TikTok
- A post making a treatment claim — send the link; he handles the conversation
- TikTok account-health warnings or listing takedowns
- Stock-out risk on anything committed to boxes, packs or samples
- Any creator with real traction waiting more than 24 hours
- An affiliate whose tracking looks like it is under-recording

QUICK TEMPLATES

USE	TEXT
Sample nudge	"Hey [name] — hope the [product] landed. The sample window closes in a few days. Post whenever it feels right for your page, tag @supermind, your link's live. Need b-roll or product info, just say."
Box day-7	"[Name] — Keys wanted me to check the box got to you right. No ask here; he chose you for a reason and the note says why. If anything in it sparked something we'd love to see what you'd make."
Tier promotion	"[Name] — you hit it. [\$X] in the last 30 days moves you to [tier] at [rate]%, effective today. Same code, higher rate. Here's what unlocks: [perks]. Proud of you."
