

EXECUTION · MASTER TO-DO & BUILD SPRINT

Every task.
Every owner.
Every date.

Everything that has to happen, from creating an account to shipping a card — written at the level someone can actually pick up and do. Grouped by when, owned by name, with the dependency noted where one thing blocks another. If it is not on this list it is not happening, and if it is on this list it has a name next to it.

OWNER	REVIEW	VERSION
B. AMECHI	TUESDAY GROWTH INITIATIVE CALL	V4.0 · SEPTEMBER 2026

BLOCK 01

Today and tomorrow.

#	TASK	DETAIL	OWNER
1	Set up ManyChat on the Supermind Instagram	Through Amechi's account, which already runs the Keys and Supermind ManyChat. Connect the Supermind IG, verify permissions, confirm billing tier.	Amechi
2	Submit the ManyChat cost for reimbursement	Screenshot the receipt, send to Mariah with September expenses. Recurring monthly — note it as a standing line so it does not need re-approving.	Amechi → Mariah
3	Add ManyChat credentials to the shared password list	Login, which account it sits under, billing owner, and who else has access. Same day as setup — this is how a tool becomes company infrastructure instead of one person's login.	Amechi
4	Audit the password list while you are in it	Confirm Shopify, TikTok Seller Center, Instagram, email platform, Google Workspace, WHOP and Zion are all on it with a named owner.	Amechi
5	Build ManyChat flow 1 — shop link	Keyword comment on any feed post → auto-reply to the comment → DM with the shop link and a line of copy.	Amechi / Steve
6	Build ManyChat flow 2 — affiliate	Keyword "AFFILIATE" or "EARN" → DM with the application form link and one line on the 20% ceiling.	Amechi / Steve
7	Build ManyChat flow 3 — story replies	Auto-response to the most common product question, with a link.	Steve
8	Add keywords to the next 10 IG captions	Every post from here carries a comment keyword. No prices in the feed.	Steve

BLOCK 02

This week — accounts and infrastructure.

#	TASK	DETAIL	OWNER
9	Create the WHOP account	Business email, brand name, Supermind wordmark and oxblood theme. Free tier.	Amechi
10	Build the WHOP hub structure	Five spaces: Course, Chat, Forum, Events, Challenges. Written welcome post. Rules pinned.	Amechi + Celina
11	WHOP credentials to the password list	Same day as creation.	Amechi
12	Set up the Supermind presence in Zion	Space created, events channel, membership framing consistent with the brand. Antoine owns the ongoing.	Antoine + Amechi
13	Build a route for affiliates to submit their own events	A form or a channel. This is the reciprocity that keeps people — we fill their rooms, not just take their content.	Antoine
14	Confirm Shopify Collabs is installed	Open admin → Apps. Screenshot either way. If it is not installed, install it the same day. Do not spend a week comparing apps.	Mariah + Celina

15	Audit all 23 existing affiliates	Codes, rates, sales to date, into a sheet. Grandfather anyone already above tier rate.	Celina
16	Fix Ruben Torres' tracking	He is 42% of affiliate revenue and his attribution needs updating. Until this is done every number we report is understated.	Celina
17	Verify attribution on the other 22	Confirm every active code is actually recording.	Celina
18	Build the three tier programs in Collabs	10% / 15% / 20%, first order, new customers, tax and shipping excluded.	Celina
19	Set payout configuration	30-day hold, automatic payouts on, W-9 collection on, \$25 minimum.	Celina
20	Set the UTM standard	utm_source=collabs&utm_medium=affiliate&utm_campaign={creator} on every link so GA4 shows which affiliates drive sessions.	Amechi

BLOCK 03

This week — the application funnel.

#	TASK	DETAIL	OWNER
21	Build the affiliate application page	Branded page on the Supermind site or standalone. Fields: name, email, phone, IG / TikTok / YouTube handles with follower counts, niche, "why Supermind" paragraph, where they will promote, shipping address, two agreement checkboxes (disclosure + claims guidance).	Amechi
22	Write the Google Apps Script	Form submission → new row in the shared Google Sheet, timestamped. Test with three dummy submissions before going live.	Amechi
23	Build the shared tracking sheet	Seven tabs per SM-AFF-03: Applications, Affiliates, TikTok, Boxes & Packs, Subscriber Campaign, Stories, KPI Rollup. Share with the whole team.	Celina
24	Add the 30-day rolling revenue formula	This column is what drives tier promotions. Set it as a formula so it maintains itself.	Celina
25	Draft all ten funnel emails	Welcome · what a good post looks like · ManyChat setup · first-sale nudge · the ladder · first-sale congratulations · re-engagement · Creator promotion · Partner promotion · subscriber invitation. Celina's first assignment.	Celina → Amechi approves
26	Wire the automated sequence	Welcome fires within minutes of application. Days 2, 5, 10, 21 on schedule. Triggered emails on first sale and tier crossing.	Amechi + Pam
27	Test the whole funnel end to end	Submit as a fake applicant. Confirm: row appears, code generates, welcome arrives, community invites work, day-2 email fires. Fix anything that does not.	Celina
28	Link the form everywhere	Instagram bio, ManyChat flow, newsletter footer, WHOP, Zion, the Handbook, every affiliate's welcome.	Steve + Celina

BLOCK 04

By September 15 — TikTok Shop and the media plan.

#	TASK	DETAIL	OWNER
29	Shoot professional product photography	Every launch SKU — 8 oz coffee, chocolate, creatine packs. Plus lifestyle, women-first casting, shot to the World Bible. Amechi leads this, not Steve. Everything downstream depends on it.	Amechi
30	Shoot product video	Pour, unboxing, motion for listings and ads. Same session.	Amechi
31	Open the TikTok Seller Center account	Business email, EIN, W-9, ID, US bank account. Every detail matching exactly across documents.	Amechi + Mariah
32	Complete business verification	Submit and monitor. Chase daily if it stalls.	Celina
33	Connect Shopify via the official TikTok app	Catalog, inventory and order sync. Clean titles, complete attributes.	Celina

34	List coffee, chocolate, creatine	Structure/function language only. No gummies — CBD is prohibited on TikTok and that is settled.	Celina
35	Verify the referral fee for our category	In Seller Center. Roughly 6%; new sellers often get 3% for 30 days after first sale.	Celina
36	Turn on open collaboration at 15%	Puts us in the marketplace where creators browse.	Celina
37	Send the first 50 targeted invites	Weighted toward women. US, 10k–200k, wellness / lifestyle / beauty / food.	Celina
38	Present the media plan in the portal	Releases the \$2,500. Use-or-lose by Sept 15.	Amechi
39	Book the Keys × Amechi session	Branding, gift-box process, target list, AI content sign-off, media alignment. The named bottleneck — four deliverables wait on it.	Amechi

September — content, design and campaigns.

#	TASK	DETAIL	OWNER
40	Design the membership card	16–18pt, matte oxblood, gold foil wordmark front, name/tier/year/code on back. Get three print quotes.	Amechi → Mariah sources
41	Order the first card run	50 cards. Blank backs printed, names added as Partners qualify, or short-run digital per batch.	Mariah
42	Design the gift box package	Rigid magnetic box, oxblood, blind-deboss wordmark, die-cut tray. Three sourcing quotes; target \$40–55 landed all-in.	Amechi → Mariah sources
43	Photograph the box as a product	It becomes campaign content and the recruiting image for the creator program.	Amechi
44	Draft the September tranche list	15 names, thirteen of fifteen women, from SM-AFF-05. Keys approves before any note is written.	Amechi → Keys
45	Keys' on-camera notes and packing session	One session, filmed. Shot list: hands and pen, the stack of boxes, one take per 3–4 names on why this person. Founder-story content before a box ships.	Keys + Amechi
46	Ship tranche 1	15 boxes within 48 hours of packing. Tracking logged. Day-7 follow-ups scheduled.	Celina
47	Record the 20-minute orientation course	Products, story, approved language, tier ladder, payouts, ManyChat walkthrough. Loaded into WHOP. The highest-value asset on the platform.	Amechi
48	Produce AI UGC batch 1	20 assets across five sets per SM-AFF-07. Track A only until Keys signs off on people.	Celina
49	Build the Claude newsletter project	Four knowledge files: writing samples, audience, products and offers, brand guide. Paste the project instructions from SM-AFF-06.	Amechi
50	Keys records the first voice-note batch	Twelve topics, 3–5 minutes each, unstructured. The human input the whole newsletter workflow depends on.	Keys
51	Rebuild the newsletter template	Edition 02 colors, new wordmark, new photography. The current template is last year's.	Pam
52	Lock the standard open line and sign-off	Pick one of each and never change them. Recognisability in three words.	Amechi + Keys
53	Draft and schedule the first 12 issues	Per the plan in SM-AFF-06. Mon/Wed/Fri. Always four queued ahead.	Pam + Amechi
54	Send the subscriber affiliate campaign	All 163, membership-upgrade framing, codes pre-generated, early access included. Top 10 get product first with a recipe request.	Pam builds · Celina follows up
55	Build the two-week IG content plan	Aligned to newsletter topics, with a Keys-led rotation added to break up the AI content and Invest Fest reels.	Steve
56	Launch challenge 1 — THE ARCHITECTURE	#MySupermindScore. Brief posted in WHOP with three AI reference frames. Announced on the Thursday call.	Celina

Meetings to put on the calendar now.

#	MEETING	WHEN	WHO	PURPOSE
57	Growth Initiative call	Weekly, Tuesdays	Full team	Standing. 15-minute affiliate block inside it, numbers first.
58	Affiliate Connect call	Weekly, Thursdays, 30 min	Celina hosts, Amechi joins, all affiliates	Wins and leaderboard · one product story · the format of the week · open floor. Hosted in WHOP, recorded.
59	Celina × Amechi deep work	Weekly, Tue or Wed, 90 min	Celina + Amechi	Building — leads, campaigns, creator development.
60	Keys × Amechi brand session	ASAP, then monthly	Keys + Amechi	The bottleneck. Branding, gift box, target list, AI sign-off, media plan.
61	Keys packing and notes session	Monthly, on camera	Keys + Amechi	Handwritten notes and box packing filmed.
62	Keys newsletter voice-note session	Monthly, 90 min	Keys	Twelve topics recorded for the month's issues.
63	Monthly tier review	First Monday	Celina	Run the promotion rule against the 30-day rolling totals.
64	Monthly board line	First Tuesday	Amechi	Numbers, spend against budget, the ask.
65	Monthly AI UGC production	Monthly, 3 hrs	Celina	20–30 assets themed to the coming month.

BLOCK 07

Outreach and partnerships to open.

#	TASK	DETAIL	OWNER	BY
66	Apply to Essence WeLoveUs.shop	Marketplace exclusively for Black women-led brands, 75M monthly touchpoints, open applications, 400+ waitlisted. We qualify. Highest-return single action on this page.	Mariah + Amechi	Sept 8
67	Open the Eve conversation	Breathe and Believe has no beverage partner and Keys has the relationship. Pitch Supermind as the in-house program. Lead with access and cultural ownership, never luxury.	Keys	Sept 15
68	Approach Sweet July Café	Ayesha Curry's café already serves coffee and matcha, second location open. A live wholesale account.	Mariah	Sept 30
69	Email Rachel at Essence re: PR	Both angles — Mariah as founder, Keys as creator-led brand. Connects to the marketplace application.	Sakara + Mariah	Sept 8
70	Open Sober Black Girls Club	Partnerships inbox published. October conversation to land Dry January 2027.	Amechi	Oct
71	GirlTrek partnership conversation	1.5M members, longevity mission, morning walks. The biggest lever on the female audience.	Amechi	Oct
72	Jordan Johnson filming ideas	Send before the shoot. Shaq Super K delivery, billboard spot, coffee-shop launch.	Keys + Amechi	This week
73	Confirm Black on the Block ATL staffing	Mina or Brian to run Sept 13; contact Ibrahim Strong for setup and breakdown.	Mariah	Sept 5
74	Confirm Maryland event sponsorship	October, Sakara's event. Coffee for content.	Mariah	Sept 30
75	Request the Timbuktu ATL proposal	Supreme's nonprofit collaboration. Keys wants a written proposal, not concepts.	Keys	Sept 15
76	Send creatine packs to team and affiliates	Request content back.	Mariah + Celina	Sept 8
77	Book three event collab packs	\$600 of the media plan. Qualify the room, not the follower count. Code live before each event.	Amechi + Celina	Sept 30

BLOCK 08

Verification, and what "done" looks like.

#	TASK	OWNER
78	Verify what the 18.45% website conversion figure measures. 428 sessions × 18.45% implies 79 conversions against 45 reported orders. This changes whether we optimise the store or the traffic.	Pam + Amechi
79	Confirm Jordan Johnson's role and audience before she goes on any target list. A five-minute manual check.	Celina

80	Check category exclusivity on Misty Copeland (Thorne) and Naomi Osaka (Olly) before approaching either.	Amechi
81	Collect W-9s from all US affiliates. Ongoing, no exceptions — payouts cap without one.	Celina
82	Get Keys' decision on AI-generated people (Track B in SM-AFF-07). Bring examples, not an abstract question.	Amechi → Keys

OCTOBER 1 — THE DEFINITION OF DONE

01 THE DOOR IS OPEN Application form live, script running, sheet populating, ten emails firing automatically. Anyone can join without talking to us.	02 75 AFFILIATES Up from 23, with 15 from the subscriber base — and every one of them tracked correctly.	03 TIKTOK LIVE Shop approved, open collab at 15%, first invites out, samples posting.	04 NEWSLETTER RUNNING Three a week, four issues always queued, the first affiliate story published.
05 BOTH COMMUNITIES WHOP hub with the orientation course; Zion presence with events flowing.	06 MANYCHAT WORKING Three flows live, keywords on every post, website sessions climbing from 428.	07 DESIGN SHIPPED Membership cards printed, box designed and photographed, product photography done.	08 BUDGET JUDGED \$2,500 deployed with a number attached to every line, ready to be assessed rather than defended.
