

THE CREATOR NETWORK · RULES AND CLAIMS CARD

Four rules.
One page.
Every post.

Keep this next to you when you write a caption. Everything here protects you first and the brand second.

EVERY POST

The four things we ask every time

#	RULE	HOW
01	Disclose	#ad or #affiliate in the caption and visible on video, or say plainly that you earn a commission. United States law
02	Tag @supermindlab	On every post. Add us as a collaborator whenever the platform allows it
03	Label AI	#ai in the caption on any AI-generated visual. Nothing more is needed
04	Tell the truth	Your own experience, in your own words. Authenticity is a core brand value

The pattern. Move the sentence from "the product does X" to "here is what happens for me." Same message, your voice, no exposure.

CLAIMS

Say this

INSTEAD OF	WRITE
Cures my brain fog	Cuts through the fog for me
Treats my ADHD	On days my focus is everywhere, this is what I reach for
Fixes anxiety	Part of how I keep myself steady
Heals your gut	Sits easier on my stomach than regular coffee
Boosts your immune system	Part of my daily routine
Clinically proven to...	Here is what the research says about Lion's Mane, with the link
Detoxes your body	How I start my mornings clean
Energy for hours	I skip the 2pm crash with this
Replaces your medication	Never, in any form

Always safe to talk about: how the morning felt, your focus during a work block, the taste, the energy compared with regular coffee, that the doses are printed on the bag.

Always off limits: cures, treats, prevents or heals any named condition. Medication. Before-and-after body imagery. A specific result promised by a specific date.

SITUATIONS

When it gets specific

SITUATION	WHAT TO DO
Somebody asks if it is safe with a condition, medication, pregnancy or allergy	Point them to the ingredient list at asupermind.com and to their doctor or pharmacist
You want to run paid ads with your code	Ask in Help first. Written permission is required
You want to host an event or stock it in a store	Ask in Help. We will connect you
You are unsure about a sentence	Post it in Help before you publish. Nobody minds the question
You posted without #ad	Edit the caption to add it. Tell us if the post can no longer be edited
