PROGRAM

SUPERMIND TEAM

WHERE

OWNER · PAM · REPORTS TO B. AMECHI

VERSION

V1.1 · SEPTEMBER 2026

WHY

Nobody has seen it as a member yet

The Supermind Creator Network at **whop.com/supermind** was built and checked by admins, and admins see a different version of the platform than members do. Some of it was built by an AI agent, and agents report success on things they half did.

Before the first affiliates are invited, one person walks the whole thing as an ordinary member and reports exactly what is there. About forty minutes.

Log problems; leave them unfixed. Note it, keep going, report it all at the end. Fixing as you go hides how many problems there were.

SETUP

The test account

- 1. Use a **personal email that has never touched Whop**. A fresh Gmail is ideal.
- 2. Sign up from **whop.com/supermind** exactly as a new person would.
- 3. Skip admin accounts and Preview mode. Preview is close to a member's view and the differences are what we are looking for.
- 4. Keep this document open and tick as you go.

TEST 1

Signup and welcome

☐ CHECK	EXPECTED
☐ Store page loads at whop.com/supermind	Headline reads "Clarity is the luxury. Come sell some."
☐ Only one product is joinable	Member , free. Creator, Partner and Flagship do not appear
☐ Join for free works	No payment screen, no card requested
☐ Welcome message arrives	Private message starting "You're in." within a few minutes
☐ Time the welcome took	Write the actual time

If the welcome message does not arrive, every new affiliate joins into silence. Say so loudly.

TEST 2

Tabs

☐	CHECK	EXPECTED
☐	Count the tabs	Eight
☐	Order, top to bottom	Start Here · The Vault · Announcements · Help · Wins · Introductions · The Network · Ziion
☐	Every tab opens	None error, none blank

TEST 3

Start Here

☐	CHECK	EXPECTED
☐	Eight modules, 01 to 08, in order	01 What Supermind is · 02 Your code and your link · 03 Your first post · 04 Disclosure · 05 What you can and cannot claim · 06 The format that converts · 07 The tier ladder · 08 Where to get help
☐	Two lessons in every module	Sixteen total
☐	Module 02 contains the code request	A working link or form to request a code
☐	Read Module 05 fully	Flag anything that reads as a medical claim
☐	Formatting	No broken text, no placeholder text

If Module 05 says the product cures, treats, prevents or heals anything, text B. Amechi immediately.

TEST 4 · CRITICAL

The Vault

☐	CHECK	EXPECTED
☐	Folders present	Logos and wordmarks · Product photography · B-roll · Caption bank · Handbook and SOPs
☐	Retired folders	Hook bank, Format of the week and Campaign packs removed or empty. Note what you see
☐	Three locked folders visible	Creator · Partner · Flagship
☐	Try to open each locked folder	All three refuse. You are a Member

☐	CHECK	EXPECTED
☐	Handbook and SOPs	SM-CN-01 Affiliate Handbook v5.0 is there and downloads
☐	Logos and wordmarks	Files present and download

If any locked folder opens, write down which one. After the welcome message, that is the most important failure in this test.

☐	Links inside lessons	None return a 404
☐	Creator Network site	super-marketingx-affiliate.vercel.app loads, logo shows, downloads work

TEST 7
