SEATS

Who owns what

SEAT	PERSON	OWNS
Lead Marketing Producer and Affiliate Program Manager	B. Amechi	The program, creator partnerships, content and video, anything for 19Keys
Co-founder and CEO	Mariah	Operations, inventory, budget, print, events, PR, payout terms
Co-founder and voice	19Keys	The brand's voice. Requests route through B. Amechi
Operations consultant	Sakara	The operating system and board perspective
Reporting and newsletter	Pam	KPI reporting, newsletter build and scheduling, Shopify code entry
Affiliate coordinator	Celina	Applications, welcomes, leaderboard, Affiliate Connect
Affiliate marketing and social	Chidera	Affiliate content and social support
Instagram and ManyChat	Steve	Brand-account posting and the automation
Ziion platform	Antoine	Platform access and the group

One seat, one owner. Shared ownership means nobody owns it.

SCORECARDS

Weekly numbers

SEAT	NUMBER	WEEKLY GOAL
Affiliate coordinator	New affiliates joined	5
Affiliate coordinator	Affiliates who posted	Over half of active
Affiliate coordinator	Help questions open past one business day	0
Affiliate marketing	Outreach approaches made	10
Reporting	Tracker reconciled against both platforms	Yes or no
Social	Brand posts published	3
Program manager	Total affiliate sales	Set each quarter

Numbers are read, not discussed, in the L10. Anything off track becomes an issue.

ROCKS

Quarterly priorities

A Rock is one thing finished within the quarter, with one owner and a clear definition of done. Three to five per person, no more. Set them in the last week of the quarter, review them every Wednesday in one word.

What makes a good Rock: "Every affiliate document is live on the Creator Network site and in The Vault" is a Rock. "Improve affiliate onboarding" is a wish.

TO-DOS

The weekly discipline

Due within one to two weeks. Owner and date, always. Cleared at 90% each week. When the list stops clearing, the team is committing to more than it can carry, which is an issue for the L10 rather than a reason to work the weekend.
