THE JOB

Keep affiliates moving

The Supermind Creator Network turns people who already like the product into people who sell it. Your job is to keep affiliates joining, posting and getting paid, and to keep the record straight while it happens.

Four outcomes define the seat:

OUTCOME	WHAT GOOD LOOKS LIKE
New affiliates join every week	A steady flow of applications, welcomed within 24 hours
Affiliates post	More than half of active affiliates post at least once a week
Affiliates get paid correctly	The tracker matches the platforms, every week, with no surprises
Questions get answered	Help answered within one business day

THE WEEK

A standard week

DAY	WORK
Monday	Welcome new joiners. Post the week's note in Whop Announcements. Check the Help queue
Tuesday	Outreach to new affiliate prospects, per SM-SOP-12. Content review
Wednesday	L10 at 11:00 AM PT on Google Meet. Bring your scorecard numbers and your question list
Thursday	Affiliate Connect. Alternates 11:00 AM PT and 4:00 PM PT, hosted in the Zion Supermind group
Friday	Update the commissions tracker. Check tier movements. Send promotion emails

Anything that repeats belongs in a document. If you do something twice by hand, write it down and send it to B. Amechi.

BOUNDARIES

What you decide and what you escalate

You decide: welcome messages, answering documented questions, scheduling posts already approved, running the leaderboard, sending promotion emails, tidying the tracker.

You escalate: anything about money that is not already written down, any exception to the rules, any request touching 19Keys, any affiliate conflict, any press or wholesale enquiry, any medical or legal question. Full list in SM-

SOP-07.

Pam is the only person who enters discount codes into Shopify. Requests for 19Keys go through B. Amechi.

HABITS

Five habits that make this seat work

1. **Batch your questions.** Keep a running list and bring it to the L10 or the Slack thread. Text or call only for a red alert in SM-SOP-07.
2. **Write the reply once.** If you type an answer twice, add it to SM-SOP-26.
3. **Check the source.** Product facts come from asupermind.com every time.
4. **Leave a trail.** Every code, payout and exception lands in the tracker the day it happens.
5. **Say the number.** Bring counts to the L10, not impressions: joins, posts, sales, open questions.
