THE POSITION

Composed intelligence

Supermind sells functional mushroom coffee with the doses printed on the label. Underneath that, the brand argues that composed intelligence is the highest form of status.

The approved line: **Built for the hours when clarity becomes action.**

Where anything here disagrees with the SUPERMIND World Bible, Edition 02, the World Bible wins.

THE VOICE

Five qualities

QUALITY	IN PRACTICE
Exact	Name the mechanism, the dose, the person, the place
Intelligent	Assume curiosity. Explain without lecturing
Cultural	Black intellectual life is the centre, never the decoration
Composed	Short sentences. No hype, no urgency, no countdowns
Evidence aware	Separate what is known from what is suggested

THE REGISTER

Most people reach for coffee at the wrong hour. Cortisol is already doing the work between six and eight. Move the first cup ninety minutes later and the same cup does a different job.

Specific, short, teaches one thing, ends with something to do.

RULES

Always and never

Always: describe experience rather than outcome. Print the dose. Credit people, places and movements when history is named. Tag @supermindlab. Put #ad on affiliate content and #ai on generated visuals.

Never: emojis. Capitals for emphasis. Exclamation marks, except in genuine congratulations. Defining something by negation. Claiming the product cures, treats, prevents or heals. Mentioning medication. Writing "clinically proven" without the study attached.

Words to retire: journey, elevate, game-changer, unlock, synergy, superfood, holistic wellness solution, hustle, grind, vibes, obsessed, literally, just, dive in, in today's world.

LANES

Product language

PRODUCT	LANE	HOW TO DESCRIBE IT
Mental Clarity	Morning	The core coffee. Lion's Mane and Cordyceps
Performance	Morning	The core coffee plus Creatine
Forever Young	Morning	Adds Chaga, Turkey Tail and Collagen
Lion's Mane Chocolate	Afternoon	The afternoon ritual
Premium tea and cacao	Evening	The wind-down
Ritual Pack	All day	The full system in one box

Keep the lanes straight. Coffee is the morning, chocolate the afternoon, tea and cacao the evening.

Supermind is written in prose. The wordmark is artwork and is never typed into a sentence.

CHANNEL

How the voice shifts

CHANNEL	SHIFT
Instagram and TikTok captions	Shortest. One idea. The hook carries it
Whop lessons	Plainest. Instructional, second person, no flourish
Help replies	Warm and direct. Answer first, explain second
Newsletter	Fullest. See SM-NEWS-01
Emails to affiliates	Short paragraphs, one action per email

CHECK

Before it goes out

1. One idea, stated in the first sentence.

2. Every number and name checked against the source.
3. No claim that cures, treats, prevents or heals.
4. Nothing from the retired word list.
5. Does this make intelligence feel desirable, human, grounded and enduring?
