

INTERNAL · PLATFORM BUILD

ManyChat Build.

The Instagram automation that turns comments into DMs carrying a link. How ours is built and how to help an affiliate build theirs.

PROGRAM

SUPERMIND TEAM

WHERE

PLATFORM · MANYCHAT.COM

VERSION

V3.2 · SEPTEMBER 2026

WHY

The gap it closes

Somebody watches a Reel, likes it, comments, and never finds the link. ManyChat replies publicly and sends them a DM with the link inside seconds. It is the cheapest conversion upgrade available to this program.

BUILD

The brand account

1. Create the account at manychat.com and connect the Instagram professional account for @supermindlab.
2. Create a **Comment trigger**. Keyword: **CLARITY**. Match on "contains," so CLARITY, clarity and Clarity! all fire.
3. Public reply, varied so Instagram does not read it as spam: *Sent. / On its way. / Check your DMs.*
4. The DM:

Here it is.

Mental Clarity is the core blend: Lion's Mane at 1,000mg fruiting body, Cordyceps, L-Theanine, organic arabica. Doses on the bag.

asupermind.com

Anything you want to know, reply here. A person reads these.

1. Add a follow-up 24 hours later for anyone who did not reply: one line, no pressure.
2. Test with a personal account before it goes live.

AFFILIATES

Helping an affiliate set theirs up

Send them these five steps:

1. Free account at manychat.com, connect the Instagram professional account.
2. One comment trigger with a keyword of their choosing.
3. The DM carries one line in their voice, their code and their link.
4. End each Reel with: comment [keyword] and I will send you the link.
5. Test it themselves before posting.

They keep their own account. We never ask for their login.

MAINTENANCE

Monthly check

Instagram connections drop after password changes and app updates. On the first Monday, comment the keyword on a live post from an account that has never used it, and confirm the DM arrives. If it fails, reconnect the Instagram account in ManyChat and test again.
