

INTERNAL · MONEY

Codes and Commissions.

How a code is created, how commission is calculated, how payouts run, and what to do when a sale goes missing.

PROGRAM

SUPERMIND TEAM

WHERE

OWNER · B. AMECHI · CODES · PAM

VERSION

V3.2 · SEPTEMBER 2026

RATES

The ladder

TIER	WEBSITE	TIKTOK SHOP	REACHED AT
Member	10%	15%	Joining
Creator	15%	20%	\$400 in sales in any rolling 30 days
Partner	20%	25%	\$1,000 in sales in any rolling 30 days
Flagship	20%	25–30% in campaign windows	By invitation, approved by 19Keys

Checked weekly. The code stays the same; the rate behind it rises. Send the promotion email the same day.

CODES

Creating a code

1. The affiliate requests it in Start Here, Module 02, with their preferred word.
2. Check the tracker for duplicates. If taken, ask for a second choice.
3. **Pam** enters it in Shopify: percentage discount, 10% customer-facing, no expiry, one use per order.
4. Log it in the tracker: code, affiliate, email, date, tier.
5. Send the code with their link and the handbook.

Codes are permanent. Changing one breaks every post already published.

RULES

The three that cause every question

1. **One discount per order.** A stacked code means the affiliate's code did not attach.
2. **A sale lands in one system only.** TikTok Shop and the website never double count.
3. **TikTok pays the creator directly**, on TikTok's schedule. We pay website commission.

CASE	ANSWER
Refund	Commission reverses
Subscription	First order earns. Ongoing commission is a Partner-and-above arrangement
Own orders	They earn
Tax	US affiliates may be asked for a W-9 before payouts begin

PAYOUTS

The monthly run

1. Pull website sales by code and by link for the previous calendar month.
2. Deduct refunds.
3. Apply each affiliate's tier rate as of the sale date.
4. Reconcile against the tracker, line by line.
5. Send the run to B. Amechi for approval before any money moves.
6. Pay, then log the date and amount per affiliate.

Never quote a payout date or minimum that is not written here and approved by Mariah. Until that is confirmed, tell affiliates: monthly, covering the previous month, with details in their welcome email.

MISSING SALES

The path

1. Ask for the date, the platform and the rough order value.
2. Check the other platform first. Most "missing" sales are TikTok orders looked for on the website.
3. Check whether another discount code was used.
4. Check the click date against the 30-day window.
5. If it is genuinely ours and missing, credit it by hand, log it, and tell B. Amechi so the cause gets fixed.
