VERSION

V3.2 · SEPTEMBER 2026

OUR SIDE

Seller Center

AREA	STATE IT SHOULD BE IN
Shop verification	Business verified, bank and tax details complete
Catalogue	Coffee, chocolate and Performance listed, with the dose on the listing image
Gummies	Excluded. TikTok does not allow that category
Open collaboration plan	Live, so any eligible creator can promote without an invitation
Targeted plans	Used for Creator, Partner and Flagship rates
Samples	Budget set, with a monthly cap

Confirm the catalogue is live before telling affiliates to search for us. An affiliate who searches and finds nothing rarely searches twice.

RATES

Matching the ladder

TIER	TIKTOK RATE	HOW IT IS SET
Member	15%	The open collaboration plan
Creator	20%	Targeted plan
Partner	25%	Targeted plan
Flagship	25–30% in campaign windows	Targeted plan, approved case by case

When somebody is promoted, update the targeted plan the same week, and log it in the tracker.

THEIR SIDE

What affiliates must do

1. Eligibility: 18 or older, based in the US, identity verified, 1,000 or more followers, account in good standing.
2. TikTok Studio, Monetization, TikTok Shop for Creator, Join now.
3. Search **Supermind** in the product marketplace and add products to their showcase.
4. Tag the product in every video. An untagged video cannot attribute a sale.

5. Pin the product on the best-performing video.

Under 5,000 followers, TikTok starts creators in a 30-day pilot with limits on shoppable posting.

MONEY

TikTok pays them

TikTok settles commission to the creator on TikTok's own schedule, shown in their dashboard. We do not pay TikTok commission and we do not adjust it. TikTok sales still count toward tier movement, so pull them weekly into the tracker.

ESCALATION

What comes to B. Amechi

A listing taken down, a policy strike, a creator disputing a TikTok payout, or a sample request outside the monthly cap.
